MAY TAKE 20 TROUT IN DAY

MEETING TO AMEND FISH LAWS
HELD IN GAYLORD MONDAY.

In accordance with a call issued by the State Department of Conservation a meeting was held in the court house at Gaylord last Monday forenoon, for the purpose of amending the laws regulating the taking of trout from the streams of northern Michigan.

The meeting was in charge of commissioner John Baird of Lansing. Every seat in the court room was occupied with delegations from several of the many counties that are to be affected by the new regulations.

There was considerable discussion relative to matters pertaining to the conservation of trout, with the idea of preserving the fishing and still have the fishing better. There is little doubt but that Michigan streams are going to be required to give out more and more trout each year, as the influx of tourists increases. Hundreds of thousands of people are looking to the famous old Au Sable river and its wonder tributaries to do a duty for humankind in the way of furnishing recreation and sport for many years to come. And too, other streams, must "come across" and do their parts. The people of Michigan are not starting one minute too soon in the work of conservation of these resources. They are the gift of God and are made for man to enjoy. They would soon be ruined in the matter of sport unless man is to stop his depredations and in turn help to rejuvenate the waters with trout until every rill and eddy will be teeming with these speckled beauties.

It was plain to be seen that all were in full accord with the belief that constructive action must be taken at once. As a conservative measure the number allowed to be taken by one person in one day was reduced from 35 to 20. And also instead of being permitted to have 50 in possession away from the streams, the limit is now reduced to 40. The legislature has already passed a law prohibiting the shipping of trout, and thus it is believed that many less fish will be taken from the waters. Trout may be transported as hand baggage only.

There was quite a discussion on what should be the legal limit in length, many being in favor of 8 inch, while the large majority were in favor of 7 inch. There were delegates present, besides Otsego county, from Alpena, Traverse City, Montmorency county, Flint, West Branch, Grayling and other places. Those representing Crawford county were the following: Marius Hanson, president, and O. P. Schumann, secretary-treasurer of the Crawford County Sportsman's association; T. E. Douglas, Claude Olson, Esbern Hanson, L. J. Kraus and Rueben S. Babitt.

R. J. Gillespie of Flint, president of the Congress of Michigan Game associations, was in attendance and told a few things of what this congress hoped to accomplish. Many clubs and associations have already joined this parent association, where in it is expected more concerted action may be had on matters of legislation and other actions desired for the interest of the sportsmen of the State.

From coast to coast anglers are known and honored and millions have taken it and pronounced it the greatest medicine of all times. A. M. Lewis, druggist.

DETROIT TOO FAST FOR INDEPENDENTS

GRAYLING BASKET BALL ENTHUSIASTS ENJOY TREAT OF SEEING PROFESSIONALS IN ACTION.

Grayling people were favored last Saturday by seeing professional basket ball, when the fast Detroit team were booked for a game on their four-day northern trip, with the Grayling Independents. Grayling went down to defeat just as Chuboyan and Alpena had the three previous nights, when they played the Detroit quintet. The score read 31 to 5.

From the side lines it didn't seem as though the Independents were playing as well as they had in previous games, although the first-half basket by the Detroit was not made until the game had been in progress several minutes and it looked then as though we would give them a fight, and even at the end of the first half when we score was 12-2. But in the second half the visiting team flung the ball into the hoop at will while it was impossible for Grayling forwards to break the defense of the fast city quintet, although they succeeded in annexing one field basket and one foul throw to the score. Most of the bank shots by the visitors were "long tons" from the center of the court, Grayling guards doing great work in keeping the visitors away from near the basket. Wasntund, Boosey, Whitmarsh and Clark were the big noise for the Detroiters. Reynolds scored both of the field goals for Grayling and Charlefour threw the one foul. Mr. Norman Gordon of Detroit, hired by Grayling, refereed the game in a pleasing manner. Very few fouls were called on either side and on a whole the game was as clean as any one would wish to witness. The Detroiters are a great team. Their manager said that Grayling put up the best game of any team on their northern trip, and that they had saved their best line-up with which to meet us.

After the game, dancing was enjoyed until 12 o'clock with music by Schrams orchestra, given complimentary by the Independent team.

WARDEN CALLS ATTENTION TO FISH LAWS.

Lovells, Mich., Mar. 27, 1922. Mr. Schumann.

Dear Sir: Will you please print the following section of the game and fish laws. It may serve the people of Grayling well to know this section which reads as follows:

It shall not be lawful hereafter for any person to fish with any spears, seines, cast-nets, or within a radius of 100 feet of or from any fish chute or ladder, dam to which a fish chute or ladder is attached, nor to hinder or frighten fish from a free passage up or down a fish chute or ladder.

Yours truly,
Fenton E. Crall.

HEALTH CRUSADERS TO FIGHT DISEASE

MICHIGAN MEDICAL LEADERS
ARRANGE CAMPAIGN OF
EDUCATION.

MEETING WAS HELD IN DETROIT

Experts on Health Topics Will Be Available to All Communities Desiring Speakers.

Detroit—Michigan's medical fraternity, including the state medical and dental societies, Detroit College of Medicine and Surgery and state department of public health, Monday night was committed to a state-wide program of education in health matters that opened a novel era of service to the citizens of the state.

The educational program was approved at a dinner at the Detroit club presided over by Marion L. Burton, president of the University of Michigan, following a series of conferences at which the general details of the plan were agreed upon.

This campaign provides for the sending of members of the state medical and dental societies, of the faculty of the state university and of the state department of health into any part of Michigan where they are invited by schools, clubs, women's organizations and all kinds of societies to address mass meetings on health subjects, without cost to the public or the organization.

The campaign was initiated by the state university medical society and was accepted by authorized representatives of the four most conspicuous organizations in the state having to do with the public health. It embraces medical men of the state and of the middle west who stand at the top of their profession.

The purpose of the program, which was adopted, and which will be in operation within the next 10 days or two weeks, was explained by speakers at the dinner to be a state-wide effort to carry to the men and women of Michigan an adequate knowledge of fundamental ascertained facts in regard to health and disease.

DUMP LIQUOR IN CHICAGO RIVER

350,000 Gallons Poured by Federal Prohibition Force.

Chicago—Federal prohibition agents dumped 350,000 gallons of wine, beer and whisky into the Chicago river while several thousand persons gathered along the bank to watch the performance.

The liquor was ordered dumped into the river by Prohibition Director Gregory, despite the fact that Federal Prohibition Director Haynes at Washington had suggested in a long distance telephone call that it would bring undesirable publicity and present too ostentatious a display.

Mr. McGregor said it was necessary to dump the liquor to provide storage space and that he tried to carry out his plans secretly, but that in some way they had become known.

DETROIT MAYOR SUES DOCTOR

Asks \$10,000 for Alleged Libel in Row Over Dr. Lorenz.

Detroit—Suit for \$10,000 damages has been filed on behalf of Mayor Cossens by Alfred J. Murphy in circuit court, against Dr. William J. Dubois of Grand Rapids, chairman of the council of the Michigan State Medical society, alleging libel. The state council had held a stonewall session in Detroit over the recent controversy about the invitation to Dr. Lorenz, and that controversy now bids fair to get a thorough airing.

The \$10,000 damage suit, which was suppressed, is understood to be based on a circular sent out by Dr. Dubois during the hot warfare which followed the invitation to Dr. Lorenz to visit Detroit.

BERLIN WON'T PAY TAX LEVY

Wirth Declares German Government Will Spurn Allies Demands.

Berlin—Chancellor Wirth told the premiers of the Federated States and Reichstag, representing the majority Socialists, Democrats, Clericals and the German people's party that the German government would inform the allied reparations commission that the 60,000,000,000 marks tax levy was not feasible, and that financial control of Germany, as stipulated in its note of last week also must be declined.

Situation in Belfast Called Worse Than Rest of Erin.

London—The possibility of establishing martial law in a part of Belfast was overshadowed by Winston Spencer Churchill, secretary for the colonies, in the house of commons Monday night.

He declared the situation in Belfast was far worse than in all the rest of Ireland and that the government was prepared to consider martial law with the military authorities.

There are a number of debates being held in the different classes. This looks good and next year the school will probably have a debating team. A course in public speaking would be a help to the debaters.

CONGREGATION GATHERS TO OFFER FELICITATIONS TO PASTOR.

Assembly Send Vote of Thanks to King Christian of Copenhagen for Honor Bestowed on Rev. Kjolhede.

In compliment to their pastor, Rev. Peter Kjolhede, the members of the congregation of the Danish-Lutheran church gathered at Danebod hall last Thursday evening to congratulate him for the honor that had been bestowed on him by King Christian X of Denmark in granting him the degree of Ridderkors of Dannebrog, an account of his having received message to that effect having appeared in our last issue. As was stated he was granted the degree for his long and faithful service to his church. The Danish people realize more fully what this honor means than we and they are rejoicing in their pastor's behalf. The gathering at Danebod hall was largely attended and the opening of the affair was a lecture delivered by Rev. S. D. Rudholm of Askov, Minn., he having been scheduled to lecture in Grayling to the Danish people on this evening.

For the event Danebod hall wore a patriotic air, the American and Danish colors being used to attractively decorate the place for the occasion. Stripes of Red, white and blue crepe paper were effectively drawn from one side of the room to the other and both American and Danish flags floated here and there. After the lecture by Rev. Rudholm the banquet took place in the basement, which had been also handsomely decorated in the national colors of America and Denmark. The tables were adorned with bouquets of sweet-scented flowers and the feast was heartily enjoyed by those present. While still seated at the tables, Mrs. Rev. Kjolhede arose and gave a few remarks. Hans Hanson was chosen as toastmaster for the evening and called upon a number of those present for remarks, all of which proved very interesting and appropriate to the occasion.

A resolution was also drawn up at this assembly to send a message of thanks to the King of Denmark and forthwith it was sent and in five hours a reply was received by Mr. Fredrickson Cook, secretary, from the king, which said "Tak Hjerterlig Genhilsen" which in the English language meant "Heartily return greetings." The evening was a very enjoyable one for all.

There is an awakened interest in improved cattle in this country.

There well may be this new interest.

The future of Crawford County lies in dairying with good dairy cows well fed suitable dairy feeds.

Your County Agent realizes that we do not all think alike on the question of what breed of cattle is best for us.

That he may not seem to be arbitrary he wishes every citizen of the county to know that he stands ready to assist in locating and bringing in worthy sires, dams, as well as bull calves and heifer calves of the breed chosen by any farmer or any community. Best results will surely come through community breeding, having all the community keep the same breed.

In making a choice we can afford to be guided by the long experience of old dairy communities. Please call on the County Agent or write.

I am surprised and deeply gratified at the number of people who are going to try alfalfa this spring. Dozens and dozens of them. They are ordering genuine, certified, scarified North Dakota Grinnin in lots from six to one hundred pounds. Several lots of fifty pounds each.

All will use the inoculation from the Agricultural College, which costs between four and five cents per acre. The inoculation material costs twenty-five cents a bottle. A bottle inoculates sixty pounds of seed. Use ten pounds of scarified alfalfa seed per acre.

Scarified Seed Most Economical. Scarified seed is seed whose hard shell or coat has been worn thin by a scarifying machine, so the young sprout can easily come through.

It has been demonstrated that ten pounds of scarified seed will do the work of fifteen pounds of unscarified seed.

Not Idle.

It has been a busy winter for the County Agent.

During this time many earnest farmers have called at the office, and we have talked over plans. I believe much good will result.

Many items of business have passed through the County Agent's office. Calls at Office. Letters written.

PLAN NOW TO HAVE A MORE BEAUTIFUL PLACE.

How To Make Shrubs and Trees Count For the Most in Planting.

I have often tried to figure out, for my own satisfaction, why so many good, substantial homes in both town and country are left unbeautiful—unplanted.

Certainly it is not because the owners do not appreciate the added charm and air of "hominess" which the simplest planting, tastefully arranged, always gives.

I have seen people of all kinds stop and exclaim over an attractively planted place. People whom I knew owned houses containing considerably more than the ones they were stopping to admire. They themselves could have had places just as beautiful, and they would have appreciated them.

Why then, did they fail to provide beautiful homes for themselves?

The Secret of Getting an Attractive Home.

I am satisfied, after many years of intimate contact with this problem, that the reason is a very simple one. It is merely that most folks do not learn that the secret of getting an attractive planting about their homes is to plan in advance of the planting season.

Each spring comes and too "planning" is left to the air they breathe like to plant something to join Nature in making the old world, and particularly their little nook of it more beautiful. But, having no plan, and not having provided for anything to plant in advance, they do not know which way to turn or what to put in, and by the time they have their minds made up it is again too late.

The First Step.

If you have made up your mind that you want to have a home that is more beautiful and more attractive in its surroundings, the time to take the first step is now.

"Now" does not mean this month, or even this week, but today, tonight, right this minute while you have the thing in mind.

Just draw a rough plan of the house or the front yard or grounds around it. Just a rough sketch, on the back of an old envelope, or on one of the kid's school pads.

Mark in such trees, stone walls, fences or other permanent features as there may be.

After that, just mark in where the trees, shrubs, or other things that you think they ought to be, should go to help make more of a picture of your place. Or to give more shade in summer or protection from cold winds in winter.

Three Simple Rules for Planning an Effective Plan.

In planning, as in anything else, there are a few simple rules which should be followed. The experience of others who have planned has proved that these are safe go deposits to follow:

1. I should say that the very first rule to use in planning to make the home more home-like and attractive by planting around it, is to have a few big trees.

Of course you may have these already; but if you have not then by all means set out some. Nothing quite takes the place of evergreens, and even if you do not want to plant two or three of them, they will make a wonderful change in the appearance of the place in addition to these if the grounds around the house are not too limited in size, some good, fairly fast growing American trees like the Elm, Maple, Beech, Birch, or American Linden, will form the foundation for future charm and added value to the place.

In selecting a location for any of these, it should be kept in mind that while they may be small—6 to 10 ft. high when you get them—they will eventually need plenty of room. Do not set them too near the house or driveways or walks.

Second, plant around the base of the house.

This does not mean that the entire foundation should be covered from sight. It is generally a mistake to do that. But use few flowering shrubs of drooping, graceful habit, such as Golden Bell, Spirea, Deutzia, etc. or some dwarf growing evergreens. These, grouped on either side of the main entrance, or in front of the porch, with some taller things such as cedars, the larger growing shrubs like Dogwood, Burning Bush, or Lilacs at or near the corners, will be sufficient. The difference which even a dozen shrubs, when used in this way will make in the appearance of a house is almost unbelievable.

Thirdly, if you wish to use still more shrubs, plant around the edges or borders of the place.

Shrubs grow naturally quite close together so close in fact, that they touch each other, and a "border" of shrubs along the sides of the yard, or around the edges of the lawn, is always attractive. But single shrubs spotted here and there over the lawn, are almost worse than none at all—to say nothing of the fact that it is an almost endless task to keep the grass looking neat around them.

These three very simple rules are a safe guide to follow in making plans for such planting as you may do next spring. More detailed information about the different kinds of shrubs, plants and flowers will be given in articles that are to follow.

But keep in mind that the most important thing is to make your plan now.

BIGGEST PLANT FOR MOONSHINE MAKING SEIZED

STATE AND FEDERAL OFFICERS RAID BIG WAREHOUSE OF LAWTON CONCERN.

FIND MUCH WHISKEY THERE

The largest distilling outfit which has been seized in Michigan since the state went "dry" was that seized by state and federal officers when the plant of the Day Grape Juice Company at Lawton, Mich., was raided February 21, just before midnight.

The officers found a manufacturing plant equipped for quantity production of whiskey and beer, and which appeared to have been turning out very large output of intoxicants. Included in the raiding force were the sheriff of Van Buren county and representatives of the Michigan State Police and the federal prohibition enforcement division.

The company operated its plant in a large building at Lawton and apparently was engaged in the manufacture and sale of unfermented grape juice. However, investigation disclosed that the liquids going out were not all of the innocent character purported.

The raiders found on the second floor of the building two aluminum stills, each of 125 gallon capacity, together with an elaborate and costly cooling apparatus. The whole was operated by a steam boiler and steam pump. Altogether, 1,341 gallons of whiskey and 3,861 gallons of wine were seized, besides mash. The revenue tax on this was computed at \$26,427.22, in addition to whatever might be assessed as fines.

The proprietor of the establishment was taken to Grand Rapids for appearance in federal court there.

The officers making the raid were: Sheriff Dwight Barker, Under Sheriff Marlo Young, Deputy Sheriffs Peter Salisbury and J. S. Barden and Detectives Max Egan and Van Buren county.

The largest distilling outfit which has been seized in Michigan since the state went "dry" was that seized by state and federal officers when the plant of the Day Grape Juice Company at Lawton, Mich., was raided February 21, just before midnight.

The officers found a manufacturing plant equipped for quantity production of whiskey and beer, and which appeared to have been turning out very large output of intoxicants. Included in the raiding force were the sheriff of Van Buren county and representatives of the Michigan State Police and the federal prohibition enforcement division.

QUESTIONS LAW FOR TEACHERS EXAMINATION.

Lansing, Mich. March 17, 1922.

To County Commissioners: My dear Commissioners: Act 302 of the Public Acts of 1921 provides in part as follows:

"In all such examinations (county teachers' examinations) two sets of questions shall be prepared in subjects ordinarily written on Saturday, one of which sets shall be available for use on Wednesday by applicants who observe Saturday as their Sabbath."

The subjects written on Saturday are as follows: Algebra, Botany, General History, and Physics. Questions on these subjects for those candidates who may write on Wednesday will be sent you. It will be necessary, therefore, to hold the teachers' examination on Wednesday as well as on Thursday, Friday, and Saturday.

Only the candidates who observe Saturday as their Sabbath are entitled to write the Saturday subjects on Wednesday. All other candidates must write their examination on Thursday, Friday, and Saturday in accordance with the schedule furnished for the examination.

Very truly yours, T. E. Johnson.

The teachers examination will be held in Grayling April 26, 27, 28 and 29.

ELDERLY LADY PASSED AWAY.

Mrs. Susan Cripps, wife of Amos Cripps, passed away at 7:00 o'clock Saturday morning at the home of her son John Cripps. She is survived by her husband, six sons and three daughters.

The officers making the raid were: Sheriff Dwight Barker, Under Sheriff Marlo Young, Deputy Sheriffs Peter Salisbury and J. S. Barden and Detectives Max Egan and Van Buren county.

The ban has been lifted from Alameda, that has been under strict quarantine for several weeks owing to an epidemic of influenza. Fifteen deaths are reported to have resulted from that disease in that place.

Elaine Alice, age 10 months, 12 days daughter of Mr. and Mrs. Seth Chapel passed away at their home, Thursday night at 9:30 o'clock from broncho pneumonia after a brief illness. The funeral was held Monday afternoon.

Mr. and Mrs. Frank Rockwell of Bay City are guests at the home of Mr. and Mrs. A. J. Joseph. Mr. and Mrs. Rockwell are about to locate in Grayling, where Mr. Rockwell has bought a meat and grocery business.

To the ladies and gentlemen voters of Grayling township: I, Tony Nelson, will appreciate your support at the election next Monday, for township treasurer, on the Democratic ticket. May I please have your vote?

The monthly meeting of the Ladies' Aid society of the Michelson Memorial church will be held Friday afternoon, April 7th at 2:30 o'clock. Members, will you please deliver to Mrs. Gillett, the rags you have sewed for rags.

Mrs. H. Malette and sons left Tuesday for Tacoma, Wash., where they will make the home of her daughter, Irene Chinnock, who is at present visiting in Detroit and Ann Arbor will join them later.

Mrs. A. M. Lewis and son, Mark are spending a few days in Bay City visiting the E. W. Behlke family. Miss Margaret Cassidy expects to leave Friday to accept a stenographic position in Grand Rapids.

Geo. N. Olson left Monday night to spend a few days in Detroit. He attended the basketball game between the Detroit team, who played here last Saturday night and the Kelly Greens. The former team won by a score of 19 to 16.

UNABLE TO RECOGNIZE TUNES

Many People of Commanding Ability Have Admittedly Lost Appreciation of Music.

Lord Erickhead, lord high chancellor (better known in America some years ago as "Frank" Smith), confessed at a public dinner recently that he recognized the tune of "God Save the King" only because people stand up when it was being played.

Some other famous people had an equally poor ear for music—one, the Empress Eugenie. Dr. Ethel Smyth, who for 30 years was a neighbor of the empress during her English exile at Farnboro and was constantly in her company, says she was totally devoid of musical instinct. Once when a local band struck up "Partant pour la Syrie" in her honor the empress mistook it for "God Save the King."

Sir Walter Scott was equally impervious to music, though many passages in his writings imply that he liked and understood it. "In music," he told Lord Melbourne, "I don't know high from low."

Swinburne's lack of musical ear was a byword among his acquaintances. Edmund Gosse describes a practical joke "played on Swinburne" which made the indignant at the time but which now seems innocent enough and not without interest. A lady, having taken the rest of the company into her confidence, told Swinburne that she would render on the piano a very ancient Florentine song—just discovered. She then played "Three Blind Mice" and Swinburne was enchanted. He found that it reflected to perfection all the cruel beauty of the Medicea—which perhaps it does.

ADVICE WELL WORTH TAKING

No Doubt Driver of Car Realized Afterward That His Sargasm Really Was Wasted.

A big passenger car was a victim of the sleet in Central avenue. The driver tried valiantly to keep it in the middle of the street, but one hind wheel slipped over a little, the driver tried to stop the "boat," the rear wheel slid along the car track, well, auto drivers know the rest.

When the car stopped sliding its two rear wheels rested against the curb and its two front ones were on the car track. Then ensued much speeding up of the engine and much whizzing of rear wheels, but no forward movement.

"What's the matter; trying to get away from the curb?" a bystander asked.

"Oh, no, I'm polishing the pavement so the kids can have some fun!" sarcastically exclaimed the driver of the car.

"Well, if you'll just cut that engine down and slip her out of high into low, I'll give you a little shove and you'll walk right away from the curb," the interloper said.

The advice was followed, the wheels ceased their mad whirl and the car, under the gentle urge of the bystander, moved away.—Indianapolis News.

From Messenger to General. General Pellegrin, who has just been appointed to the command of the thirteenth division of French infantry, with headquarters at Langres, is a living proof of the possibility of rising by unaided effort, which Napoleon crystallized into the saying that every French soldier carried a marshal's baton in his haversack.

General Pellegrin, whose parents were in very poor circumstances, began life as a telegraph messenger at Marseilles. He scraped and saved so as to be able to buy books, which he studied at night after his day's work for the postoffice was finished. He took his baccalaureate, got into the military college at Saint-Cyr, obtained his commission with flying colors and passed the Ecole de Guerre, or staff college. He took part in the operations in Morocco in 1907, was badly wounded at the battle of the Marne, and afterwards returned to Morocco, where he became one of Marshal Lyautey's most valued assistants.

Umbrella Sign of Married Man. You can tell a married man by the umbrella he checks, asserts the young capitalist who presides over the cloakroom of a family restaurant. If he has two weather sticks, one a heavy, cheap affair, that was purchased with the idea of being soon lost, and the other of finer material, it's a sure bet that he's married.

According to this psychologist, married folks when they start out in the rain each carries his own umbrella so they can have the minimum of inconvenience and retain a maximum of dryness. In the pre-nuptial times the male of the species would never hear of the woman battling the winds alone. He would carry the umbrella over her and get wet himself. But they're married now, and that makes a difference.

No Place for Tobacco Fields. As a precaution against forest fires, smoking has been entirely prohibited in any part of the Olympic national forest in Washington. The area covered by the "no smoking" order amounts to about 740,000 acres. The period of this prohibition is to be determined by the district forester at Portland, Oregon. The "urgent reason for this action is due to the fact that the area was largely swept by a cyclone during the last winter and the ground is covered with broken trees and branches of trees so that if a fire were to get any headway at all, it would be difficult to check it.

FOUND A CURE FOR INDIGESTION.

"I use Chamberlain's Stomach and Liver Tablets for indigestion and find they cut my case better than any dyspepsia remedy I have ever tried and I have used many different medicines. I am nearly fifty-one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to now, writes George W. Emory, Rock Mills, Ala. These tablets contain no poison but strengthen the stomach and enable it to digest the food naturally.

Seven Points of Supremacy

1. The sole leather used in "FOOT-FITTERS" is of the best quality obtainable. Even the insoles are cut from standard outside leather.
2. "FOOT-FITTERS" are the only shoes in the world having full length ramps and sole leather-box toes. This feature prevents ripping at the tip and makes a smooth outer and inner surface.
3. The insoles are shoulder channelled so that they fit tightly against the outside. There is no need or room for a cork filler. A small piece of duck is used to prevent squeaking.
4. The Canvas inside counter pocket is of great value, for it saves the wear on the socks. There is no rough surface to rub against.
5. "FOOT-FITTERS" heels are 1/2 inch longer than generally used. They give additional support to the arch and increase the comfort and wear of the shoe.
6. The vamp is reinforced with 3-oz. duck. This absorbs the moisture from the foot, this keeps the vamp from cracking and holds the shoe in shape.
7. Edmonds' "FOOT-FITTERS" shoes are called "FOOT-FITTERS" because they fit the foot snugly. Built on combination lasts they support the foot like a doctor's bandage. "FOOT-FITTERS" give comfort, service and appearance.

ANNUAL TAX SALE.

STATE OF MICHIGAN,

County of Crawford.

The Circuit Court for the County of Crawford in Chancery.

In the matter of the petition of ORAMBL B. FULLER, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

On reading and filing the petition of the Auditor General of the State of Michigan praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each several parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition will be brought on for hearing and decree at the April term of this court to be held at Grayling in the County of Crawford, State of Michigan, on the 11th day of April, A. D. 1922, at the opening of the court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said court, and file with the clerk thereof their objections thereto on or before the first day of the term of this court above mentioned, and that in default thereof the same will be taken as confessed and a decree will be taken and entered as prayed for in said petition. And it is further ordered that in pursuance of said decree the lands described in said petition for which a decree of sale shall be made, will be sold for said taxes, interest and charges thereon as determined by such decree, on the first Tuesday in May thereafter, beginning at 10 o'clock a. m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer, or at such convenient place as shall be selected by him at the county seat of the County of Crawford, State of Michigan, and take a conveyance of the same to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee simple interest therein; or, if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be sold and sold as such parcel shall be cannot be sold for taxes, interest and charges, and the same shall be passed over for the time being, and shall, on the succeeding day, or on the day or days subsequent thereto, be sold for the amount aforesaid, the County Treasurer shall bid off the same in the name of the State.

Witness the Hon. Guy E. Smith, Circuit Judge, and the seal of said Circuit Court of Crawford County this 14th day of February, A. D. 1922.

GUY E. SMITH,

(SEAL)

Countersigned,

FRANK SALES,

Clerk.

STATE OF MICHIGAN

To the Circuit Court for the County of Crawford in Chancery: The petition of ORAMBL B. FULLER, Auditor General of the State of Michigan, for and in behalf of said estate, respectfully shows that the list of lands hereinafter set forth and marked "Schedule A," contains a description of all lands in said County of Crawford upon which taxes were assessed for the years mentioned therein, and which taxes have not been paid, together with the amount of such taxes, with interest computed thereon to the time fixed for said taxes to be paid, and expenses, as provided by law, extended against each of said parcels of land.

Your petitioner further shows to the Court that said lands were returned to the Auditor General under the provisions of Act 200 of the Public Acts of 1919, and that said taxes remain unpaid, except that lands included in said "Schedule A" for taxes of 1919 or prior years were returned to the Auditor General as delinquent for said taxes under the provisions of the general tax laws in force prior to the passage of Act 200 of the Public Acts of 1919, and which taxes remain unpaid.

Your petitioner further shows that in all cases where lands are included in "Schedule A" as aforesaid for taxes of 1919 or of any prior year, said lands have not been sold for said taxes or have been heretofore sold for said delinquent taxes and the sale of sales so made have been set aside by a court of competent jurisdiction, or have been cancelled as provided by law.

Your petitioner further shows and avers that the taxes, interest, connection fee and expenses assessed in said "Schedule A," are a valid lien on the several parcels of lands described in said schedule.

Your petitioner further shows that the said taxes on the said described lands have remained unpaid for more than one year after they were returned as delinquent, and the said taxes not having been paid, and the same being now due and remaining unpaid as above set forth, your petitioner prays a decree of the Court for the payment of the several amounts of taxes, interest, connection fee and expenses, as computed and extended in said "Schedule A" against the several parcels of land contained therein, and in default of payment of the said several sums computed and extended against said lands, that each of said parcels of land may be sold for the amounts due thereon, as provided by law, to pay the lien aforesaid.

And your petitioner will ever pray, etc.

Dated FEBRUARY 17th, 1922.

ORAMBL B. FULLER,

Auditor General of the State of Michigan,

for and in behalf of said State.

Misses Hester Hanson and Ruth McCullough won prizes in guessing contests, which the hostess arranged for entertainment. Mrs. Herman assisted by Mrs. Carl England, served a most delicious lunch to the guests.

Mrs. James H. Wingard, who is soon to leave the city was delightfully entertained by the members of her Sunday School class—the Bluebird girls, at the Michelson Memorial church parlors last evening. Flowers adorned the tables on which a very nice lunch arranged by the girls was served. Mrs. Wingard was presented with a beautiful tray, as a gift from the class, whom she has taught for the past three years. Late in the evening a photograph was taken of the group.

In another column of the Advance appears a legal publication advertising the trout fishing laws to take effect May 1st. There appears to be but two changes from the laws of former years, viz: The limit of number that may be taken in one day is 20, and not more than 40 may be had in possession away from the stream at any time. The limit of length still remains at 7 inches and is not mentioned in the new regulations. These laws are now uniform in all trout streams of the State except in the North Branch of the Au Sable, where the legal length is 8 inches.

Next Monday is election. When we go to the polls to cast our votes, we must not forget that we have a responsibility to the public. When we have considered the merits of the candidates as to their fitness for the places they seek to fill, then we may be able to cast an intelligent vote. At home in our little communities the principles of the great political parties count for little. Just forget that you are a Democrat or Republican, and vote for the man. A candidate should be competent, trustworthy and faithful in the discharge of his duties if elected. Let us vote for those whom you believe will fill these requirements.

C. W. Olson purchased the Alfred C. Olson bankrupt stock at the reference sale Wednesday. The consideration was \$4050. The value of the stock and fixtures as set by the appraisers was \$4321.08. For several years Mr. Olson (C. W.) was head bookkeeper for the Salling Hanson Company from which position he resigned about a year ago, intending to enter the retail lumber business. He has been disappointed in finding a suitable location. For the past two weeks he has been in Grayling and it happened that the said drug stock was to be sold and the opportunity was taken advantage of by Mr. Olson. He is a capable business man and we have no doubt of his success in this new enterprise.

That's our trade-in price for a 6-volt Prest-O-Lite Battery for popular makes of light cars. We have types for heavier cars priced correspondingly low.

When you get a Prest-O-Lite Battery, you have joined our Life Extension Institute for Batteries. You have started right with a Prest-O-Lite, and Prest-O-Lite Service will prolong the life of your battery.

Prest-O-Lite Batteries live longer, and die slower than any other make. It's their backbone of famous Prest-O-Plates that makes them live to a ripe old age. The plates that do not forgo porosity, to obtain hardness. Plates with ready power in winter, combined with great, non-buckling, heat-resisting strength in summer.

That's why 87 leading manufacturers specify Prest-O-Lite Batteries as original equipment, and "the list is growing."

How is your battery pulse? If it is low and weak, let our experts diagnose its trouble, no matter what make of battery. Our friendly advice and attention will put it in shape if it can be done, and we never tell you that you need a new battery until you do.

Come around and enroll your battery in the Life Extension Institute of the oldest organized service to motorists.

FARM BUREAU NOTES.

(Continued from first page.)

clover, they will not give us hay before 1923.

To have some feed for the coming winter there are five things we can use for emergency hay:

Millet, (where land is suitable), Sudan grass (good if season is dry and hot), Hubbard (annual, white sweet clover), extra amount of corn fodder, both planted and drilled, soy beans.

There will be a lot of soy beans planted in Crawford County this year.

Seed can be had for \$2.50, delivered in Grayling. Use a bushel per acre if you drill with all spouts of grain drill open.

Use half a bushel per acre if you drill with grain drill to cultivate in rows 30 inches.

Mr. Elmer Osterlander states that he planted 2-1-2 acres in rows three feet apart, with one-half bushel, using a hand corn planter.

Soy beans have as high protein content as alfalfa.

Soy beans will grow on rather sandy acid soil.

Soy Beans.

Soy beans are not a patent nostrum, they will not grow hair on a bald head, but they are a specific that have proved their worth.

Soy beans planted with corn for silage will produce a better quality and greater tonnage of ensilage than corn alone, at an added cost of 25c per acre.

Soy beans planted with corn has produced 170 pounds more pork per acre, hogged off than corn alone. Is that amount of pork worth the extra cost?

Soy beans will produce up to 3 tons of air dried hay per acre containing as much digestible protein as alfalfa.

Soy beans will grow where clover will not.

Soy beans will add more nitrogen than clover.

Are you overlooking an opportunity? Consult your County Agent about Soys. We will continue to prepay freight to April 1st only.

Every Barn Burning.

Our slogan this year is: "Every

Barn Burning.

It is possible for every farmer of us to have this come true by using the emergency hay crops spoken of in this article.

Let's bite off a big chunk this spring and chew hard on it.

Let's get repairs made early. Let's get all tinkering done before fields are ready to work.

Then, when spring is really here, let's not be running to town when we should be on the field, but let's be taking strenuous measures to have "Every Barn Burning."

Going Some.

The seed department of State Farm Bureau recently broke two records. March 15, it shipped \$19,000 worth of seed; on the 17th, \$26,000 worth from the Lansing warehouse.

They have other warehouses at Grand Rapids, Kalamazoo, Saginaw, Escanaba, Hillsdale, and they were shipping seed, too.

Bouquets.

State Farm Bureau bulletin speaks of the splendid co-operation we are receiving from our paper, the Grayling Avalanche.

Others read it. Do you?

THE PNEUMONIA MONTH.

March is typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance, and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleanses the germ laden mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly.

EXCELLENT REMEDY FOR CONSTIPATION.

It would be hard to find a better remedy for constipation than Chamberlain's Tablets. They are easy to take and mild and gentle in effect. Give them a trial when you have need.

FARMERS—WELCOME.

You are cordially invited to attend the regular meeting of the Crawford County Grange at the G. A. R. hall, at Grayling, April 15th at 1 o'clock prompt!

Bring a well-filled basket and we'll have a pot luck dinner.

This meeting will be a Farm and Home management meeting. Prof. H. M. Eliot, M. A. Professor of Farm Management, and Miss Edna V. Smith, B. S. Home Management specialist, will be the principal speakers. Homer Annis will furnish tractor statistics. There will be singing, too.

Professor Eliot, is a man of experience and one whom you will enjoy hearing, and asking questions of. He will emphasize Farm Accounting and every Crawford County farmer should hear him, for we all should keep accurate accounts of our business just as any other business man, and a good many of them have money invested than average Crawford County farmer. You will be surprised by the simplicity of Farm Accounting as Professor Eliot teaches it. He no doubt will have with him a neat up-to-the-minute account book which you will be able to buy of him at cost of printing say, 25 or 30 cents. These are prepared at the M. A. C. and have no unnecessary detail involved.

I am not acquainted with Miss Smith's work but I believe she will emphasize Home Accounting.

Home Economic specialists have not frequented Crawford County a great deal in the past and if you farm women of Crawford County want to be open-minded, and learn to do your work better and more easily, now is the time to start. If the meeting is well attended it will be easy to get other specialists.

You will like Miss Smith and will enjoy the afternoon with her.

Farmers and Farmers' wives we've got to be more open-minded if we are going to improve mentally as well as socially and financially. COME!

You may like it. Let's all turn out. Let's show our visiting speakers we are full of pep, that we are eager to learn how to get ahead faster, and not the down-and-outers they must picture us as being. What better date could you want? Don't hunt for excuses. COME!

Clifford Merrill, Lecturer.

THE WEARY WAY.

Daily Becoming Less Wearisome to Many in Grayling.

With a back that aches all day, With rest disturbed at night, Annoying urinary disorders, This is a weary way, indeed.

Doan's Kidney Pills are especially for kidney trouble.

Are endorsed by Grayling citizens. Ask your neighbor.

Mrs. W. H. Cowell, Maple St., Grayling, says: "Kidney trouble has me in a miserable condition. My back bothered me especially at night and I felt all tired out. When I stooped I was in misery on straightening and I always felt nervous and depressed. I felt just as tired in the morning as I did when I went to bed the night before and often I saw black specks float before my eyes which made me dizzy. Several headaches caused me many a distressful hour. My kidneys were in poor condition when I was advised to try Doan's Kidney Pills. I used several boxes and after taking them I felt fine. Thanks to Doan's."

Price 60c at all dealers. Don't simply take for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cowell had. Foster-Milburn Co., Mpls., Buffalo, N. Y.

CHAMBERLAIN'S COUGH REMEDY.

Nothing So Good for a Cough or Cold. "Everyone who has used Chamberlain's Cough Remedy speaks well of it," writes Edward E. Miller, Abbotstown, Pa. People who once use this preparation are seldom satisfied with any other. It is instant relief to a cough or break up a cold.

HUNDREDS PLEDGE AID TO TOWNSEND

STATE REPUBLICAN LEADERS ENTHUSIASTIC OVER SENATOR'S RE-ELECTION CANDIDACY.

PRaise RECORD IN CONGRESS

Unit in "Condemnation of Interests which Oppose Him, as Political Persecutors and Self-Seekers."

More than 600 men and women, leading Republicans representing practically every county of the state, met in Detroit last week, and in a gathering marked for enthusiasm and determination, formally launched the campaign for the re-nomination and re-election of Charles E. Townsend, of Jackson, as United States senator from Michigan. The conference was held in the Hotel Statler on Wednesday, March 22.

The accomplishments of Senator Townsend as a public servant, as set forth by the score or more of leaders from all sections of the state, who addressed the meeting, and as contained in the resolutions adopted by the conference, have written a record for the Jackson man seldom, if ever, surpassed in the history of the country. His friends declare it is on this record of achievement that they propose to make the campaign for Senator Townsend, and unqualified confidence in its success was expressed on every hand.

Opposition is Scored.

A significant feature of the meeting was the unity with which the speakers denounced the forces which are seeking to bring about the defeat of Senator Townsend and it was frequently charged that the agitation over the Senator's vote on the seating of Senator Newberry was but the manufactured issue of the opposing party and of those interests which seek revenge for past defeats, rather than the welfare of the state and nation.

The list of speakers at the meeting reads like a roll call of the Republican leaders of the state. The first speaker was Milo D. Campbell, of Coldwater, candidate for governor in the campaign of 1920 and an outstanding figure in the Republican party for many years. Mr. Campbell was unstinted in his praise of the record of Senator Townsend and unhesitating in his condemnation of the Democratic party.

"There would be no opposition to Senator Townsend now had it not been for selfish ambitions," he declared.

"The voice of Michigan is dominant in national affairs, with Charles E. Townsend as senator, and must continue so."

His Foes Against Treaties.

"It is significant to note that every one of the 30 senators who voted against the treaties resulting from the Washington conference on disarmament, voted also against Senator Newberry, and that not one of the senators who voted with Senator Townsend on that occasion opposed the treaties. This is nothing more than a plain parallel to the present dastardly attempt to besmirch Senator Townsend this early in the campaign."

Rep. Patrick O'Brien of Iron River was another speaker who gave his unqualified endorsement to the Jackson man's candidacy, declaring that if it were not for a slight support of an ex-service man candidate by the former soldiers of his district there would be no opposition at all to Senator Townsend.

R. J. McLean, of Detroit, chairman of the Michigan Deep Waterways Association, paid glowing tribute to Senator Townsend for his long and earnest work in behalf of the Great Lakes and St. Lawrence river waterway to the sea. Other speakers from all over the state, and representing every class of voter, added their praise for the public service of the senator and declared their confidence in his re-nomination and re-election.

Women Enthusiastic.

A number of women leaders who were in attendance also expressed themselves and the various women's organizations they represented as being enthusiastic over the candidate's qualifications. These speakers included Mrs. Eleanor E. Gage, of Saginaw, Mrs. Mary Veonliet, of Alpena, and several others.

The resolutions committee presented for the approval of the conference a striking tabulation of the accomplishments of Senator Townsend. The resolutions, which were adopted by acclamation, included citations of his record in behalf of the Great Lakes St. Lawrence waterway movement, his efforts for the furthering of the good roads program of the nation, on behalf of farmers for the joint marketing of agricultural products, the appropriation for the investigation and encouragement of the production of American sugar-beet seed, in every endeavor seeking the relief and well-being of veterans of the World War for his "courageous and loyal stand in upholding the fair name of the State of Michigan when it was slandered, blasphemed and attacked by the Democrats, thereby flagging, permanently and completely, ending the most outrageous political persecutions in American history."

ANNUAL TAX SALE FOR CRAWFORD COUNTY.

Starting with issue of March 9 and ending with issue of April 8 the list of lands in Crawford County to be sold-for-non-payment-of-taxes will be published in the Avalanche.

The sale of such lands will take place at the office of County Treasurer, Court house, Grayling, Michigan, the first Tuesday in May, 1922. All residents of Crawford County should compare their tax receipts with the published lists to ascertain whether or not their lands are advertised for sale.

Order Regulating The Taking and Possession of Fish in the Waters of the District Comprising the Counties of Wexford, Osceola, Missaukee, Gladwin, Ogemaw, Oscoda, Crawford, Otsego, Clare, Newago, Arenac, Alcona, Montmorency, Emmet, Cheboygan, Lake, Mason, Manistee, Grand Traverse, Leelanau, Benzie, Alpena, Charlevoix, Antrim, Kalkaska, Isosco, Presque Isle and Roscommon asking that a time and place be fixed for a public hearing to determine the advisability of making an order to regulate the open season, size and manner of taking brook trout in the waters of the counties named, because of the threatened depletion of such fish in said waters.

WHEREAS: Proper notice of said hearing was duly published in accordance with the law and hearing thereon having been had in the city of Grayling, Otsego County, on the 27th day of March, 1922 at which time and place all persons appearing were heard both for and against the issuing of such order.

THEREFORE: I, John Baird, Director, Department of Conservation, after due deliberation of the evidence submitted at such hearing do hereby order that Section 5 of Act 230 of the Public Acts of 1915, in so far as it regulates the number of brook trout which may be taken in one day and had in possession at one time be suspended for a term of five years from the first day of May, 1922, during which time it shall be unlawful for any person to take, catch or kill in the waters of the district comprising the counties of Wexford, Osceola, Missaukee, Gladwin, Ogemaw, Oscoda, Crawford, Otsego, Clare, Newago, Arenac, Alcona, Montmorency, Emmet, Cheboygan, Lake, Mason, Manistee, Grand Traverse, Leelanau, Benzie, Alpena, Charlevoix, Antrim, Kalkaska, Isosco, Presque Isle and Roscommon more than twenty brook trout in any one day or to have in excess of twenty brook trout in possession at any one time on said waters, or to take with him or have in his possession at any point away from said waters more than forty brook trout at any one time; under penalties provided by Section 5 of Act 9 of the Public Acts of 1915, as amended.

Signed, sealed and ordered published this 28th day of March, 1922.

JOHN BAIRD, Director.
Approved by Conservation Commission this 28th day of March, 1922.
